

WYATT BORDEAUX Electrical Engineer

www.linkedin.com/in/wyatt-bordeaux | [GitHub - https://github.com/ButterCaptain](https://github.com/ButterCaptain)

(702) 343-6956 | Las Vegas, Nevada | Wyatt.L.Bordeaux@gmail.com

RESULTS DRIVEN, CURIOUS, ADAPTABLE, AMBITIOUS, ANALYTICAL

Experienced self-starter with demonstrated experience in project management, design, coding, sourcing, re-engineering processes with a passion for electrical engineering, physics, mathematics and computer science. Collaborative in creating innovative solutions.

EDUCATION

Bachelor's Degree | Electrical Engineering | University of Nevada, Reno

Expected 2029

- HONORS COLLEGE

Advanced Honors Diploma | Coronado Highschool | GPA 4.95 | Rank 1

2025

TECHNICAL SKILLS

C++ | Python | Excel | Troubleshooting | Control systems | Electrical circuits | Prototyping | Arduino | Unity | Solidworks

PROFESSIONAL EXPERIENCE

PROJECT INTERN | Wrebotics | Las Vegas, NV

Jun 2025 – Aug 2025

- Designed and prototyped an educational engineering kit centered on an Arduino-based RFID lock system, incorporating custom circuitry, embedded control logic, and secure access functionality.
- Managed project budgeting, component sourcing, and resource allocation to deliver a cost-effective yet high-quality instructional product.
- Leveraged hardware integration and control-systems to develop a practical, classroom-ready learning tool that enhances students' hands on learning experiences.

SUMMER ENGINEERING PROGRAM – TEACHING ASSISTANT | UNLV | Las Vegas, NV

Jul 2025 – Jul 2025

- Instructed 15+ students in circuits, physics, mechanical engineering, and C++.
- Led the class in designing and building a robotic arm and an Arduino-controlled RC car integrating IR and ultrasonic sensors for object detection.
- Assisted with labs, demonstrations, and troubleshooting to support effective hands-on learning and technical comprehension.
- Supported lesson planning and provided one-on-one guidance to reinforce key engineering principles.

QUALITY ASSURANCE INTERN | Tether Studios | Henderson, NV

May 2024 – August 2024

- Identified and documented logical, visual, and performance issues on IOS devices.
- Participated in engineering meetings regarding the functionality and future enhancements for mobile games.
- Created and managed documentation through Slack for streamline communication between departments.

CERTIFICATIONS

- Amateur Radio Technician License – FCC
- MATLAB Programming Skills – MathWorks
- Signal Processing Essentials in MATLAB – MathWorks

ACHIEVEMENTS

- Institute of Electrical and Electronics Engineers Member (2025 – Present)
- 7-time Nevada State record holder in squats, deadlifts, and bench press (2022 – 2025)
- Win/Lost of 25/2 under the US Chess Federation (2023 – 2025)
- Chess Club President (2022 – 2025)
- Weight Room Captain (2022-2024)
